INQUIRY BY OFFICIALS

Disastrous Wreck Near Canaan Investigated.

PROCEEDINGS ARE SECRET

But It Is Known That the Train Dispatcher and the Operator Who Received His Order Were Closely Questioned--Twenty-five Persons Killed.

Concord, N. H., Sept. 17.—The investigation by the officials of the Boston and Maine railroad of the collision of trains on the Concord division near Canaan Sunday, by which twenty-five passengers of the Quebec express lost their lives and twenty-seven were injured, occupied the entire time of the heads of the system Monday.

The proceedings were secret but it is known that J. A. Crowley, the train dispatcher in this city, and Operator Greeley, the man who received the order from the train dispatcher at the station at Canaan, were particularly questioned. After the examination of these men, the officials, accompanied by Operator Greeley, left for the scene of the accident in a special train.

Just what action will be taken by the authorities of Grafton county, in which the town of Canaan is located, has not been determined. County Solicitor M. D. Cobleigh of Lebanon said that no move has been made as yet on the part of the state.

All the victims of the wreck have been identified. The following is a list of the identified dead:

Timothy Shaughnessey, Manchester; Mrs. Timothy Shaughnessey, Manchester; George L. Southwick, Worcester, Mass.; Fred M. Phelps, Ochsle, Tex.; Mrs. M. E. Warren, Haverhill, Mass.; Mrs. Adolph Boisvert, Concord, N. H.; Miss Annie Barrett, Manchester; Augustine Royer, Manchester; Richard F. Clarkson, Lebanon, N. H.; Frank H. Lowes, Ipswich, Mass.; Mrs. E. S. Briggs, West Lebanon, N. H.; John M. Congdon, Bethel, Vt.; Leon S. Cady, West Lebanon; Dominick Benoit, Lowell, Mass.; C. E. Berby, Boston; Mrs. L. C. Blake, Somerville, Mass.; Lelia Hould, Manchester, N. H.; H. D. Stevens, Muquodobott Harbor, N. S.; Annie St. Pierre, Isle Verle, Que.

The injured persons who were taken to the Mary Hitchcock hospital at Hanover are all reported to be doing well, with the exception of Miss Allina Juron of Nashua, N. H., who is internally injured.

SIX WORKMEN DROWNED.

Jumped From a Sinking Barge Into the Allegheny River.

Pittsburg, Sept. 17.—Panic-stricken when a barge in which they were crossing the Allegheny river began to sink, six workmen employed by the Dravo Contracting company on the United States government dam No. 2 at Aspinwall, Pa., a suburb six miles above this city, jumped into the river and were drowned. With the exception of Frank Herman all the men were Italians.

When near the Aspinwall shore the barge, which was heavily loaded with stone, began to sink. The foreigners became frenzied and leaped into the river, carrying Herman with them. None of the men could swim and perished before assistance from shore could be given. The bodies were recovered.

ACCUSED OF MURDER.

Minnesota Man Alleged to Have Shot a Woman.

Winona, Minn., Sept. 17.—Adolph Munson, a business man of Albert Lea, was arrested Monday night on a charge of murdering a woman with whom he had been living. Her name is Mrs. Clifford Julian and it is said that she came from Iowa. During the dinner hour at the Commercial hotel the guests were startled by a pistol shot on the second floor. Mrs. Julian rushed from the room, blood streaming from her breast, and shouted "my husband has killed me."

An investigation showed that the woman had been shot through the heart. She died while being taken to the hospital. Munson declares that the shooting was accidental and that the woman killed herself.

Odd Fellows Meet in St. Paul.

St. Paul, Sept. 17.—St. Paul Monday formally became the host of the eighty-third annual communication of the sovereign grand lodge of Odd Fellows. The supreme governing body of the order met in executive session after having been extended the greetings and welcome of the state and city at Central Presbyterian church. Immediately at the conclusion of the public ceremonies, the sovereign grand lodge went into executive session at the old capital.

Engagement rings are wholly unknown in Japan, the accepted lover instead presenting his sweetheart with a beautiful silken sash.

SAYS IT LEADS TO ATHEISM

Pope Issues Encyclical Strongly Condemning "Modernism."

Rome, Sept. 17.—The Osservatore Romano, organ of the Vatican, has issued an important encyclical of Pope Pius X. on "Modernism," which really is a completion of his recent syllabus. The document sets forth that Modernism is a serious danger to the church, refers in detail to the various features of Modernism, condemns it as dangerous in philosophy, faith, theology, history, criticism and reforms and arrives at the conclusion that Modernism is a synthesis of all heresy and must logically lead to atheism. The encyclical makes the following provisions:

First—The teaching of philosophy, positive theology, etc., is to be carried on in the church schools and universities but in a Catholic spirit.

Second—Modernists are to be removed from professorships and the direction of educational institutions.

Third—The clergy and faithful are not to be allowed to read Modernist publications.

Fourth—A committee of censorship is to be established in every diocese to pass upon the publications which the clergy and faithful shall be permitted to read.

Fifth—The encyclical of the late Pope Leo XIII. prohibiting the clergy from assuming the direction of publications without their bishop's permission and providing for supervision of the work of ecclesiastical writers is confirmed.

Sixth—Ecclesiastical congresses, except on rare occasions, are prohibited.

Seventh—A council is to be constituted in every diocese to combat modern errors.

THE TERMS OF FRANCE.

Believed That Moroccan Tribesmen Will Accept Them.

Paris, Sept. 17.—The Figaro declares that the conditions imposed by General Druide upon the Moroccan tribesmen are that they give up the authors of the original assassinations at Casa Blanca, pay indemnities for these murders and for the pillaging of the town and give hostages for the fulfillment of the conditions.

Premier Clemenceau declared in an interview that he considered the latest news from Casa Blanca to mean that the trouble there was definitely at an end.

With the submission of all the tribes, which now seems practically assured, it would appear that the mission which took General Druide into Morocco has been fully accomplished. Persons acquainted with the country declare that the movement on the part of the tribesmen is over. They are essentially agriculturists and they are in a hurry to return to their fields for the first rains.

INVESTIGATION TO BE MADE

Inquest Will Be Held to Determine Cause of Youth's Death.

Kansas City, Mo., Sept. 17.—The coroner has refused to permit the burial of the body of R. Cyril O'Neal, aged nineteen years, who died here last Friday supposedly from Bright's disease while under the care of Dr. George W. Fraker. An inquest will be held to determine the exact cause of death.

According to Dr. Fraker, O'Neal came here last December from Evanson, Ill., where he had been an inmate of a hospital.

"He was ill and friendless and I looked after him," said Dr. Fraker.

Dr. Fraker created a sensation ten years ago by disappearing suddenly from Excelsior Springs, Mo., shortly after taking out \$90,000 worth of life insurance. His clothes were found on the river bank and it was supposed he had been drowned until he was found living in the woods in Minnesota.

Fraker said that O'Neal carried no life insurance.

MAXIM GORKY MARRIED.

Woman Who Accompanied Him to America Is Now His Wife.

New York, Sept. 17.—That Maxim Gorky and Mme. Andrieva, the woman who accompanied him on his trip to America, are now married, is the news brought from Europe by Harold MacGrath, the author, who arrived on the steamer Finland. Dr. MacGrath and his wife spent the summer on the island of Capri, near where Gorky now lives, and he states positively that the marriage has taken place.

Will Appeal for Aid.

Washington, Sept. 17.—As the result of recent conferences President Gompers of the American Federation of Labor will issue an appeal for aid for the striking telegraphers. Discussing the address Mr. Gompers said that the document had been completed and soon would be given to the public.

Gas Kills Sioux City Man.

Sioux City, Ia., Sept. 17.—Robert B. Hutchinson, a nephew of Judge Hutchinson, went to his room and a few hours later was found dead, asphyxiated. His landlady called him at 10:30 p. m. and being unable to arouse him broke down the door and found his dead body. He was thirty-six years of age and unmarried.

KILLS TWO BROTHERS

Young Italian Uses Revolver With Fatal Effect.

MOB THREATENS MURDERER

Aged Mother of His Victims Leads Crowd Seeking Vengeance and Officers Have a Hard Fight to Prevent a Lynching.

New York, Sept. 17.—After Harry Becker had been killed and Samuel Becker, his brother, had been mortally wounded by Francesco Sicca, a young Italian, two detectives had a desperate fight with a mob led by the young men's mother and bent on lynching the assailant of the two young men before the three were rescued by the police reserves.

The Becker brothers were proprietors of a hardware store on Upper Second avenue in "Little Italy." The police say Sicca purchased a revolver Sunday at the store. Monday night he returned and wanted his money back, saying the revolver was not satisfactory. His demand was refused and he opened fire on Harry Becker, who fell dead at the first shot. His brother Samuel rushed to the rescue and the Italian fired three more shots in rapid succession. Samuel Becker falling apparently dead with a bullet in his abdomen.

Detectives Higgins and Naughton rushed into the store and grappled with the Italian, who fought fiercely. A great crowd gathered and made an attempt to take the prisoner from the detectives.

At the head of the mob was the aged mother of the Becker boys, who was armed with an axe and who in her frenzy demanded that she be allowed to wreak vengeance on the slayer of her sons. The detectives were hard pressed between the struggles of their prisoner and the efforts of the mob to reach him. Finally the police reserves arrived and rescued the trio.

Mrs. Becker was taken home and is in a serious condition from shock. The hospital surgeons say Samuel Becker will die.

ARE DOING THEIR BEST.

But American Delegates Cannot Wake Up Europeans.

The Hague, Sept. 17.—Joseph H. Choate and General Horace Porter of the American delegation to the peace conference are doing their best to shake the indolence of some of the European delegations, the members of which although so close to their governments, constantly postpone discussions or stop work because they must ask for instructions. Up to the present time the efforts of the American delegates have been unsuccessful; the fate of the permanent court of arbitration is still undecided, while strangely enough the report on the matter of obligatory arbitration was entrusted to Baron Guillaume (Belgium), who has consistently opposed this idea in accordance with the instructions of King Leopold, who fears the application of obligatory arbitration to the Congo Independent State. For this same reason M. Beernaert, the head of the Belgium delegation, who personally is in favor of compulsory arbitration, has been ordered not to take part in the discussions thereon. Baron Guillaume began by delaying the drafting of his report, but he now expects to have it ready on Sept. 23.

In the meanwhile the delegates to the conference are inundated with documents regarding secondary questions. According to the department having this matter in hand, over ten tons of printed matter have been distributed to the delegates since the conference began. It is said now that the conference will come to an end on Oct. 10.

ANOTHER BIG BATTLESHIP.

Great Britain Orders One Because Peace Conference Will Fail.

Devonport, Eng., Sept. 17.—The admiralty has instructed the dockyard authorities here to lay down immediately a battleship of 20,000 tons, carrying eight 13.5-inch guns. The instructions are urgent that the work must be pushed with all possible haste.

It is supposed that this battleship is the fifth "Dreadnaught" in the original naval programme. Announcement was made that this fifth ship would not be built until the result of the second peace conference at The Hague became known and the failure of the conference is believed to be responsible for the change of programme.

Two Earthquakes Recorded.

Laibach, Austria, Sept. 17.—Two earthquakes calculated respectively to be distant 3,750 and 4,380 miles, were recorded at the government observatory here Sunday. The first lasted for one hour and a half and the second lasted for three-quarters of an hour.

A True American Type.

Tennessee has been termed a Mother of States, and as the founder of the first American colony beyond the mountains, no one of the determined frontier fighters who did vallant service there deserves so much as General James Robertson to be called the Father of Tennessee.

Robertson's settlements were small, his followers were rude, rough men, but the future of those little colonies was big with destiny, and from the loins of his pioneers has descended a race of men who, measured by achievement, are perhaps inferior to none that ever trod the earth. The deeds of the leader himself were enacted in an obscure corner of the world, but his heroism was not less than that of other men whose fame is brighter because the theater of their action was more in the gaze of the world. His character was of the grim, austere type of the Scotch Covenanters from whom he sprung. Accepting for his guidance in life the gloomy tenets of pure Calvinism, and applying its pitiless logic to all life's affairs, he did his duty as it was given him to see it with unswerving fidelity.—Lynn Tey Sprague in Outing Magazine.

Garibaldi and Tennyson.

When the popular Italian patriot visited England in 1894 he saw Tennyson at Farringford. "Did you hear Garibaldi repeat any Italian poetry?" wrote Tennyson to the Duke of Argyll in reference to the occasion. "I did, for I had heard that he himself made songs and hymns, and I asked him, 'Are you a poet?' 'Yes,' he said quite simply, whereupon I spouted to him a bit of Manzoni's great ode, that which Gladstone translated." In the same letter he gives his impression of the patriot: "What a noble human being! I expected to see a hero, and I was not disappointed." Garibaldi was a great reader; Osselin and Scott were among his favorite writers. "I read few works of fiction," he once said to an English visitor at Caprera, "but I do like Sir Walter Scott; he is a grand romancer and much to be preferred to Dumas."—Westminster Gazette.

Going West.

"It's funny the impressions easterners get of the west," said a Columbus man. "I mean easterners who have been west. I know a New York woman who came to Columbus to live. It was her first trip west, and she had never been farther west than Pittsburgh.

"I was surprised with Columbus," she said. "I told all the girls when I left that I'd be back in three months for a visit, and I asked them all to have their whisk brooms ready to help me brush the hayseed off of my back."

"Did you think it was a small town?" I asked her.

"Well, I didn't think much about it at all before I knew I was to come here. But because it was so far west I thought it must, just in a general way, be out in the country and that I'd be a regular farmer before I saw New York again."—Columbus Dispatch.

"OLD GLORY."

The Way This Name For the Stars and Stripes Originated.

The term "Old Glory," used to designate the flag of our country, is a favorite, and the expression is a very happy one.

It is said by those who claim to be well informed that the name originated with William Driver, captain of the bark Charles Doggett. This statement appears in a history of the Driver family, and from this we find the following facts:

Driver was a successful deep sea sailor and was at the time making his vessel ready for a voyage to the southern Pacific. In 1831, just as the brig was about to set sail, a young man at the head of a party of the captain's friends saluted Driver on the deck of the Doggett and presented to him a handsome American flag 19 by 38 feet in size. The banner was done up in stops, and when it went aloft and was flung to the breeze Captain Driver, says the tradition, then and there named it "Old Glory." The flag was carried to the south seas and ever afterward treasured by its owner.

Driver removed to Nashville, Tenn. in 1837 and there died in 1886. Before the outbreak of hostilities between the north and south Old Glory flew daily from a window in the captain's Nashville house, but when the rumors of war became facts it was carefully sequestered.

When the war broke out the precious flag was quilted into an innocent looking comfortable and used on the captain's bed until Feb. 27, 1862, when the Sixth Ohio marched into Nashville. Then the flag came out of its covering, and the captain presented it to the regiment to be hoisted over the capitol.

There it floated until it began to tear in ribbons, when it was taken down and a new one placed on the building. After the death of Captain Driver the first Old Glory was given to the Essex Institute at Salem, where it is still preserved and may be seen by the curious.—Kansas City Journal.

Reduce Your Fat

Rengo Rapidly Reduces Excess Fat Without the Aid of Tiresome Exercises or Starvation Diet

COSTS NOTHING TO TRY.

Rengo will reduce excess fat and build up the strength and health of anyone who eats it regularly for a short time. It is a product of nature, efficient to the taste and safe and harmless in all its properties. It will not injure the digestive organs as so many drugs and medicines do.

Rengo positively reduces surplus fat rapidly and does so without harm to the subject. It is very palatable and pleasant to eat. It is prepared in a highly concentrated form and is convenient to carry in the pocket so one can have it with him at all times.

Rengo requires no exhausting exercises or starvation dieting to help it out as so many of the so-called fat reducers do. You can go right ahead and attend to your regular daily duties. It compels proper assimilation of the food and sends the food nutriment into the muscles, bones and nerves and builds them up instead of piling them up in the form of excess fat.

There is nothing "just as good" as Rengo. For sale by all druggists at \$1.00 per full sized box, or by mail prepaid, by the Rengo Co., 3151 Rengo Bldg., Detroit, Mich. The company will gladly send you a trial package free by mail, if you write them direct to Detroit; no free packages at drug stores.

For sale and recommended in Brainerd by H. P. Dunn & Co., Druggists.

Boilermakers on Strike.

Spokane, Wash., Sept. 17.—Nine boilermakers in the Northern Pacific shops here received word from St. Paul to strike. They walked out at once, leaving the foreman and one helper to do all the repair work on the division. Great Northern boilermakers at Hillyard received word to quit and the entire force, consisting of seventeen men, failed to go to work.

Health in the Canal Zone

The high wages paid make it a mighty temptation to our young artists to join the force of skilled workmen needed to construct the Panama Canal. Many are restrained however by the fear of fevers and malaria. It is the knowing ones—those who have used Electric Bitters, who go there without this fear, well knowing they are safe from malarious influence with Electric Bitters on hand. Cures blood poison too, biliousness, weakness and all stomach, liver and kidney troubles. Guaranteed by H. P. Dunn & Co druggists. 50c.

GROVER KOOP HIT BY TRAIN

Horse Bolted in Front of Passenger Train and He was Thrown Onto the Engine

INJURIES MAY BE SERIOUS

View of Track Obscured and Train was Running 12 Miles an Hour it is Claimed

Grover Koop had a narrow escape from instant death at the Sixth street crossing this afternoon. He was driving his parents' horse and buggy and the horse became frightened and bolted, going right in front of the east bound afternoon passenger train. The engine, which bystanders claim was going about 12 miles an hour, struck the buggy amidships, and he was thrown about 15 feet into the air and lit on the side of the engine. He was badly shaken up and bruised, but whether or not he is seriously injured he was unable to state when seen by a DISPATCH representative shortly after. It is thought there were no bones broken. He states that the view was obstructed by Herbert's lunch room and the shade trees and the train came in so rapidly that he had no chance to turn around and he could not hold the horse.

Special Train to Pine River

Brainerd people are taking a great deal of interest in the second annual fair which will be held at Pine River on Tuesday and Wednesday, Oct. 1st and 2nd. The North Star ball team will go up on the last day, Oct. 2nd, to contest on the diamond with the Pine River Giants. Pine River's 1906 team which won laurels on the diamond and only had two defeats out of sixteen games played. On that day a special train will be run from Brainerd, leaving here at 8 o'clock in the morning and stopping at all points on the line. Returning the train will leave Pine River at 8 o'clock in the evening. The races for the fair both days are attracting a number of fast ones from all over the country and the race track has been rebuilt and put in the best of shape for the coming event. The fare for the round trip from Brainerd will be \$1.22.

The Gas Range.

It is important for housewives to learn not to waste gas. The oven usually should be lighted from five to fifteen minutes before using for baking or roasting, but in most instances it may be turned out before the baking is quite completed, as the heat is retained for some time. Make a point, however, of never lighting a top burner until the water or food is on it. "Many a mickie makes a muckle," the Scotch say, or in plain American, "It's the little things that count," as every household economist soon learns.—New York Post.

MARKS OF GOOD CITIZENS

Observation Made by One of Our Citizens Much Interested in Civic Improvement

"I have really seen a very desirable citizen," said a business man yesterday. "While not belonging to either the Civic league or the Park Improvement club he is, without membership, a very efficient worker along those lines. He is a man who keeps his lawn, back yard and all in splendid shape and refused to 'cut across' the rail road park even if it is decidedly advantageous to him to do so. Last spring Supt. Blanchard was loth to remove the fence around this place because he feared that the grass would be destroyed by those who spare nothing beautiful to make a 'short cut' and from results it is evident that he was right. It is a pleasure to see that there are at least a few who will not tread out the grass even if it does save a few steps. It is being demonstrated that some sort of fence must be again placed about this place if the grass is to be preserved."

TO LAY OUT ROAD WORK

Geo. W. Cooley, Engineer for the State Highway Commission is Expected Here Tomorrow

State Engineer Geo. W. Cooley, who has been expected for some time to come and lay out the work to be done on the roads designated by the county commissioners as state roads, has notified interested parties that he will be here tomorrow noon prepared to take up the work. It is said that the black grade on the town line between the towns of Crow Wing and Long Lake, will be the first to be improved, and it is expected that this will be put in shape to be permanent, and future expense on it will be simply that of keeping it in order and preventing rutting.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years it was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. The New Headquarters

The Cross Lake Logging company, which for many years has done business at Cross lake, and which is now known as the Northland Pine company, have moved the base of their operations to the northern part of the state and the old headquarters will know them no more. The company will build their headquarters on Sugar Point, opposite Bear island of Leech lake, some 30 miles distant from Walker. The company has its large freight boat nearly completed in the ship yards at Walker and the boat will be used in freighting supplies across the lake from Walker into camp. The plan of building a freight house at Walker has been abandoned and they will erect one at Bena on the Great Northern railway, at which point they will "tote" their supplies this winter. The change is made owing to the fact that Bena will be the nearest shipping point from camp and the road will be more sheltered as it will run through the heavy timber all of the way. James Long, of the Northland Pine company, has had surveyors looking up the best route to the "tote" road. The company will employ a great many men in their operations during the coming winter.

ROUTINE BUSINESS ONLY TRANSACTED

Mid Month Meeting of the City Council was of Little Interest to Public

H. TURCOTTE WANTS DAMAGES

Filed Bill Asking \$350 for Damage Done to Miracle Block Because of Storm

There was no important business transacted by the city council at their regular mid-month meeting Monday evening. In fact it was the shortest meeting in many months and adjourned shortly after 9 o'clock.

All the members except Alderman Fogelstrom were present at the opening and he came in shortly after. The finance committee made its monthly report showing the following funds on hand Sept. 1st:

Current expense fund.....	\$ 7 579 78
Electric light fund.....	1 788 99
Miscellaneous.....	4 535 20

Total.....\$ 13 907 27

There was no unfinished business to come before the council.

A communication was received from H. Turcotte, owner of the Miracle block asking that the city pay him \$350 damages because of the flooding of the basement of that building and the undermining of the wall by water in the recent heavy storm, and alleges that because of negligence in not keeping the streets clean the sewers would not carry the water and the city was therefore liable for damage. On motion of Alderman Zakariassen the matter was referred to the city attorney.

Alderman Baker brought up the matter of the bridge on South Seventh street which had been impassible since the same storm. A motion was made that the matter be referred to the street committee with power to act. Alderman Zakariassen thought that it should be referred to the street committee to report at next meeting. Alderman Fogelstrom declared that there was no street leading to the bridge from town, only an alley. This was strenuously denied by Alderman Baker and others. After some discussion as to methods of repair the motion to refer to the street committee with power to act was carried.

Alderman Zakariassen called the attention of the city fathers to the fact that the runners for the various hotels and the U. S. mail carrier were using the sidewalks for a highway for carts to the exclusion of pedestrians and Mayor Wise said that he would see that ordinance was enforced.

The aldermen from the Third ward called attention to the alleged fact that City Contractor Everett had removed the barriers around a new sidewalk in front of 315 Third avenue Northeast before the walk was fit to use and against the protests of the property owner and as a result the walk had been damaged. The matter was referred to the city engineer.

On motion the electric light department was instructed to move poles in alley in Southeast Brainerd.

There was some more talk regarding weighing of coal on city scales, complaint being made by one alderman that a coal firm had refused to weigh coal sold on city scales when requested. The matter was laid over until the ordinance might be looked up.

A report was made that the Northern Pacific railroad company had offered to pay for half the paving of Broadway between the tracks and Main street. City Attorney Polk stated that the gross earnings tax covered all regular and special taxes on property used or reserved for use for railroad purposes. He did not believe the company was liable for paving the west half of the street but that they were for the east half, that side abutting property leased to the Swift Packing company. He said he would draw a resolution for next meeting covering the abatement of the illegal taxes and accepting the payment of one half by the company.

The fire committee reported that the hose house was now vacant at night except for the drivers, but the city council did not seem inclined to take any action looking to paying men to sleep there. Alderman Toohey suggested that he and Alderman Farrar and Johnson being firemen, sleep there until others could be secured, but there was no response from the other aldermen.

The hose house in the Third ward was reported in bad shape as a result of the big storm and the fire committee was given power to act in the matter of repairs.

Alderman Turcotte asked that there be additional sewerage put in to drain Sixth street so that it would not flood block 67. It was referred to the street committee and the city engineer.

There was more discussion of the matter of collecting fees due from the former city clerk, but City Attorney Polk expressed his doubt of the ability of the city to prove the items of the claim and no action was taken in the matter.

MAPLE GROVE ITEMS

Last Sunday, Mrs. Hetver and the teacher visited at Mrs. Pete Barto's.

Pete Barto, Mr. Knutson and the two Erickson boys have gone to Fargo on their way for the fall threshing.

It is known that several of the farmers have seen at different times, large swarms of bees flying over. This part of the country will be a good place for bee hunters to get their winter's honey.

Monday, Sept. 2nd, school opened in district No. 38, under the care of Miss Landquist, of Brainerd, with nine scholars in attendance, though they really did not get down to business until Wednesday.

Olof Erickson is the owner of a seven year old orchard, and though a small one, the trees are of good size, and better still, hang loaded with crabapples, Ben Davis, Duchess and several other varieties of apples.

Our new neighbor, Lewis Wohl, is busy putting up his out buildings, and among them will be an outside root cellar, made in the fashion of an old country or Norwegian cellar. He finds these fall days none too long for what he wishes to accomplish.

Last week Mr. Watsic had a swarm of bees come out, and though it is late in the season for swarming, he helped them along as much as possible by giving them full sheets of foundation, and just four days they filled the frames eight in number, and had commenced to fill them with honey. Who owns better workers?

Proceedings in Bankruptcy

In the District Court of the United States for the District of Minnesota, Fifth Division.

In the matter of Harry D. Treglawny, Bankrupt, in Bankruptcy.

To the Honorable Page Morris, Judge of the District Court of the United States for the District of Minnesota: Harry D. Treglawny, of the city of Brainerd, in the County of Crow Wing, and State of Minnesota in said district, respectfully represents that on the 12th day of June, 1907, last past, he was duly adjudged bankrupt under the acts of congress relating to bankruptcy; that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said acts and of the orders of the Court touching his bankruptcy.

Wherefore he prays that he may be decreed by the court to have a full discharge from all debts provable against his estate under said bankruptcy act, except such debts as are excepted by law from such discharge.

Dated this 7th day of September 1907.

A Sad Fact

It is a sad fact that people in general know nothing of the food they eat. It is the duty of the physician to awaken them to the necessity of acquainting themselves with the merits of a food and the reputation of its producer. Haphazard productions are not the ones to be trusted, but where science, experience, experiment and research are factors, the result must be meritorious. Under these circumstances we can feel justified in recommending

MUSIC AND DRAMA

Coming Attractions

Sept. 25—Raffles.

Sept. 30—Sousa's band, Matinee only.

"The Choir Singer"

"The Choir Singer," at the opera house last night was a very pleasing comedy drama and was presented in a manner which took the audience. The scene was laid in part in Maple Grove and had a typical rural setting, while two scenes were laid in New York. The Roof Garden theatre scene was especially pretty. The acting was of an order which should have commanded better patronage, though a crowded house would have probably added snap to the work of the performers. The role of the little blind girl was well done and the "Choir Singer" pleasingly portrayed. The next attraction at the opera house will be Raffles, which will be here the 25th.

"Raffles, The Amateur Cracksman"

"Raffles, the Amateur Cracksman," which will be the attraction at the opera house Wednesday, Sept. 25, with the clever young romantic actor S. Miller Kent in the name part, has been described as being the best detective story ever placed upon the stage. Its dramatization of the series of sketches by E. W. Hornung, contained in the two volumes: "Raffles" and "The Amateur Cracksman." They have been fitted to the stage by Eugene Presbrey, perhaps the most artistic stage manager of the country. Manager Joseph M. Gaites has engaged a strong company for the play.

FARGO, NORTH DAKOTA

HENRY H. ROGERS ILL

Standard Oil Official Need Not Appear in Court.

STRICKEN WITH PARALYSIS

Rockefeller's Lieutenant Said to Be Unable to Transact Business—Incapable of Attending Trial of Suit for Fifty Million Dollars.

Poston, Sept. 17.—Upon the evidence of members of the family of Henry H. Rogers and the family physician that Mr. Rogers suffered a stroke last July, and has since been unable to transact any business, Judge Hammond in the supreme court announced that it would be cruel to compel his attendance in court and dismissed a motion to that effect. The condition of Mr. Rogers was disclosed in the course of a hearing on a motion to show that he was incapable of attending the trial of a suit against him for \$50,000,000 brought by C. M. Raymond of Somerville for alleged conversion of certain royalties in connection with the production of petroleum.

The hearing began last week with the testimony of Mr. Charles P. Pratt of New Bedford, who stated that Mr. Rogers had suffered from a stroke last July and was unable to attend to his business.

The hearing was resumed Monday and two sessions of the court were consumed in hearing the testimony.

Counsel for Mr. Raymond sought to show by the testimony of personal and business friends of Mr. Rogers in New Bedford and Fair Haven and also by numerous telephone tickets giving a record of calls between New York and the home of Mr. Rogers in Fair Haven that the Standard Oil financier had been about the streets, had participated in certain festivities, had engaged in certain business in New Bedford and had been in frequent communication with his associates in New York.

Four Witnesses Heard.

In support of the claim that Mr. Rogers was too ill to appear four witnesses were heard. The first was Urban H. Broughton, the son-in-law of Mr. Rogers. He said that since July 22, when Mr. Rogers was taken ill in New York, his father-in-law had been unable to transact any business, and that soon after that date Mr. Rogers told him that Broughton must pick up all his business and carry on the affairs to the best of his ability and knowledge and that he would not hold Mr. Broughton responsible for any

mistakes. At this time, Mr. Broughton testified, the physicians had refused to allow Mr. Rogers to see any members of the family, not excepting his wife. He admitted that once in August his father-in-law had talked with John D. Archbold of the Standard Oil company, but it was not on business. At present, he testified, Mr. Rogers' face is distorted on the right side, that the left side of his body is out of its natural position, and his speech is affected.

Henry H. Rogers, Jr., corroborated his brother-in-law in many respects.

Norman W. Nesbitt, a New Bedford dentist, and Dr. Pratt also testified as to Rogers' condition.

Judge Hammond then reviewed the evidence briefly and dismissed the motion.

GARY IS OPTIMISTIC.

Steel Corporation Official Talks About Business Outlook.

New York, Sept. 17.—E. H. Gary, chairman of the board of directors of the United States Steel corporation, took an optimistic view of the business outlook in an interview here. He declared that a general quickening of business will follow the sale of \$7,000,000,000 worth of crops, which he expects to take place in a few weeks if the weather remains favorable. In the near future, he added, the public will realize that not in ten years has it had such a chance to pick up good securities. When that time comes, he said, companies will be enabled to raise funds for renewals, improvements and extensions. Mr. Gary continued:

"To me the general situation is this: The country was in need of between \$500,000,000 and \$1,000,000,000 additional capital and could not get it. The next best thing happened—a slowing down. If the favorable weather continues for the next two or three weeks we will get \$7,000,000,000 for our crops. That will keep the railroads busy and to keep ahead the railroads must order new cars and rails. A general quickening of business will follow.

"In my opinion the forthcoming presidential election has been discounted earlier than usual and it has been reflected in the securities market."

Roadmaster Is Killed.

CAUGHT IN A TYPHOON.

Army Transport Sherman Received a Terrible Buffeting.

San Francisco, Sept. 17.—In the grasp of a terrific typhoon, which raged unceasingly for five days and nights, the United States army transport Sherman, which arrived here Monday, received a terrible buffeting during the voyage from Nagasaki. Shortly after leaving the latter port the vessel ran into the tail-end of a typhoon and was tossed about like a cork. Heavy seas swept over the Sherman's bow and but small progress was made during the four days of the voyage which followed.

While 750 miles off San Francisco the Sherman established a new record for the transport service by communicating with the wireless station at Mare Island.

The Sherman brought the members of the Sixteenth infantry and the Sixth engineering corps, in addition to a full list of cabin passengers.

"The Blood is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are affected, and many an evil deed or impure thought is directly traced to the impurity of the blood. **Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It cures and purifies the blood, thereby curing pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.**

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist does not happen to have the "All-Healing Salve" in stock, you can easily procure it by enclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

ATTACK LEAVES HER BLIND

Mrs. Cassie Chadwick Suffers Nervous Collapse.

Columbus, O., Sept. 17.—Mrs. Cassie M. Chadwick, noted witch of finance, who, posing as Andrew Carnegie's natural daughter, swindled Ohio and Eastern banks and capitalists out of millions in loans on bogus securities, was stricken with a nervous collapse at the penitentiary which has left her blind.

Her condition is serious and it is the opinion of the prison physicians that she will never live to serve out her ten years' sentence, two years of which she has now completed.

Later it was stated by officials at the penitentiary that Mrs. Chadwick has entirely recovered.

W. Fabyan of the Eastern Yacht club, New York, whose points were 12, second.

OUR NATIONAL DANGER

Time to Cry a Halt Before a Panic Comes

The business spirit is crushing out the sweeter element of home life. We are in danger of great commercial decline, because men, as a whole, think only of getting wealth.

There are thousands, both men and women, who do not take time to eat properly. They rush through life, and as a result we have an age of indigestion, nervousness, irritability, sleepless nights, and morose disposition.

With the discovery of Mi-o-na tablets, there is no longer any excuse for one to have ill health from stomach weakness.

Mi-o-na strengthens the walls of the stomach, stimulates secretion of the digestive juices, regulates the liver and restores muscular contraction to the intestines and bowels, so no laxative is needed.

Sick headaches, palpitation, bad taste in the mouth, yellow skin, irritability, coated tongue and melancholy are a few of the many distressing results of indigestion. Mi-o-na never fails to dispel all these troubles.

H. P. Dunn & Co. sell Mi-o-na in 50-cent boxes, and guarantee to refund the money if the remedy does not give complete satisfaction.

Spanish Marquis a Suicide.

Madrid, Sept. 17.—The Marquis del Valle-Cerrato, a Carlist general and aide de camp to the pretender, Don Carlos, committed suicide Monday. The motive for the act is not known.

OUTRAGES AT ODESSA.

Black Hundreds Pillage Jewish Houses and Beat Their Occupants.

Odessa, Sept. 17.—Notwithstanding the proclamation of the new prefect of Odessa, General Novitsky, outrages in the streets here were resumed Monday on the occasion of the funeral of a police official. The Black Hundreds fired revolvers recklessly all day, broke into Jewish houses, pillaged them and cruelly beat their occupants. Two Jews were killed and many were injured. Reports are reaching this city of raids, robberies and murders at other places.

A Hard Worked Pronoun.

A quarryman was charged with assaulting one of his fellow workmen, and when the case was carried into court an eyewitness of the occurrence gave some curious evidence. "He tuk a pick an' he tuk a pick," the witness began, "an' he hit him wid his pick, an' he hit him wid his pick; an' if he'd hit him wid his as hard as he hit him wid his, he'd have near killed him, an' not him him."
